SUMMARY

Computer Science graduate with certifications in Salesforce Platform Developer I, Administrator, OmniStudio Consultant, Associate, and SAFe® 6 Scrum Master. Skilled in Salesforce configuration, automation, OmniStudio solutions, and data management, with hands-on experience building guided forms, dashboards, and integrations. Strong technical foundation in Python and MySQL, supported by academic and Salesforce projects that demonstrate problem-solving, analytical, and collaboration skills.

PROJECTS

- **Application Enrollment Form | Salesforce OmniStudio, Experience Cloud, Flexcards, Flows | May 2025 - Aug 2025**
Designed and built a guided enrollment form in Experience Cloud using OmniScripts for Mathnasium parents to submit student details and class preferences. Configured Data Mappers (Extract & Load) and Integration Procedures to upsert *Student__c* records and orchestrate enrollment logic. Additionally, developed an instructor dashboard with FlexCards and automated confirmation emails using Flow and Email Alerts.
- **Artificial Intelligence Pacman Agent | Python, Search Algorithms, Reinforcement Learning | Feb 2024 - April 2024**
Developed an AI-powered Pacman agent in Python, implementing search algorithms such as DFS, BFS, UCS, and A* for efficient pathfinding, as well as adversarial multi-agent strategies like Minimax, Alpha-Beta Pruning, and Expectimax. Incorporated reinforcement learning techniques including Q-learning, Approximate Q-learning, and Value Iteration using MDPs, and validated performance through autograder tests and extensive game simulations.
- **Pet Adoption Management System | MySQL, SQL | Aug 2023 - Nov 2023**
Implemented a relational database management system using MySQL for real-time data retrieval and transaction control with ER diagrams, normalized schemas, and automated processes using SQL scripts, joins, views, and triggers. Optimized database performance with indexing and transaction control, showcasing strong skills in database design and real-world data management.
- **Power Consumption Analysis | Blockchain, Decision Tree, Machine Learning | Jan 2023 - March 2023**
Built a system to analyze household power consumption using blockchain integrated with decision tree algorithms. Performed data preprocessing for cleaning and normalization, applied encryption and decryption techniques for secure storage, and trained a decision tree model to predict energy usage. Conducted vulnerability testing to identify potential risks and evaluate system robustness.

SKILLS

- **Salesforce:** Apex (Triggers, Classes, Test Classes, Asynchronous Apex), SOQL & SOSL, Lightning Web Components (LWC), Aura Components, Visualforce, REST/SOAP API Integration, Platform Events, Governor Limits handling, Debugging & Deployment (Change Sets, VS Code, SFDX CLI), User Management, Profiles, Permission Sets, Security, Reports & Dashboards, Flows, Validation Rules, Automations, Data Loader, Data Management
- **OmniStudio:** FlexCards, OmniScripts, DataRaptors, Integration Procedures
- **Agile & Project Management:** Scrum Master practices, Agile Methodologies (Scrum, SAFe®, Kanban)
- **Web Development :** Python
- **Database:** MySQL, PostgreSQL
- **Front-end:** PHP, HTML
- **Stylesheet:** CSS
- **Tools:** GitHub, VS Code
- **MS Office** (Word, Outlook, Excel, PPT)
- **Soft Skills:** Problem-Solving, Team Collaboration, Debugging & Troubleshooting

CERTIFICATIONS & TRAINING

- Salesforce Platform Developer I (Sep 2025)
- Salesforce Omnistudio Consultant (Aug 2025)
- Salesforce Administrator (March 2025)
- Salesforce Associate (Sep 2024)
- SAFe® 6 Scrum Master – Scaled Agile, Inc (May 2025)
- Data Engineer Training - Bignortek (June 2025 - Oct 2025)

EDUCATION

- **MS in Computer Science** | University of New Haven, USA | Aug 2023 – May 2025 | CGPA - 3.45/4
- **B.Tech in Information Technology** | St. Joseph's Institute of Technology, India | 2019 – 2023 | CGPA - 8.83/10
First Class with Distinction

ACHIEVEMENTS & INVOLVEMENT

- Achieved Double Star Ranger rank on Salesforce Trailhead with 200+ modules and 115,000+ points.
- Tutor – Mathnasium, CT (Aug 2024 – Present): Tutored students from Grades 1–12 in math and assisted with SAT preparation.
- Volunteer Event Coordinator – University of New Haven (Sep 2023 – Apr 2025): Organized campus events and managed logistics, fostering teamwork and leadership skills.
